

Quality Policy

The name Horizon Plastics International represents quality to our employees, the clients we serve, and the community in which we work. Our commitment to quality for all stakeholders is demonstrated by following a widely communicated and understood Quality Management System.

At Horizon Plastics **we** are **all** responsible and accountable to strictly adhere to:

- **Continuous Improvement Process** using a cross functional team approach
- **Quality Planning** - through our work processes and guidelines that produce products and services
- **Quality Control** - which is driven by measurement through our process and product
- **Quality Assurance** - meet our agreed upon requirements for internal and external customers
- **Quality Improvement** - eliminating waste and non-conformances, while improving our efficiencies within our operation

We will only be content when our customers are confident that they receive quality products and services from our company each and every day.

“At Horizon, quality belongs to all of us!”
